

Suspicious Occurrence "Possible Attempted Luring"

Sent: 2014-02-10 @ 20:31

Case: 14-542

Author: SRF

On February 10, 2014 at approximately 3:55PM, a 9 year old female on her way home from her school bus stop, had what we believe to be the above vehicle, stop across the roadway from her and say "HOP IN, I'LL TAKE YOU HOME". The girl identified the vehicle as a red convertible, clean with no snow or ice on it. The above picture was captured at 3:38PM on a home security system located around the corner from the incident.

The driver was described as a white male, in his 30's with a "Southern accent" with brownish hair (described as short hair, but covering his ears), freckles and looking tired (black bags under his eyes). He was wearing a red short sleeve t-shirt and no jacket. The driver was wearing brown gloves when he was next to the girl.

At no time did the vehicle attempt to pull closer to the girl and at no time did the driver attempt to get out of his vehicle. The girl told us that once the vehicle past her, she began to run and did not stop until she got to her house (about 200 yards away).

This incident happened on Eglantine Avenue almost at the intersection with East Franklin Avenue. This neighborhood has only one way in and one way out. A check of the area failed to produce any vehicle at this time. This incident was not reported to the Police until 5:39PM.

At this time, this is all the information that we have. If you have any questions, or can identify the above vehicle or assist in any way, contact me at the phone number or email below. Its easier to contact me via email, I will then get back to you.

Thank you for your assistance.
